

# 2008 Trauma Registry Scorecard

Mortality rates by injury severity

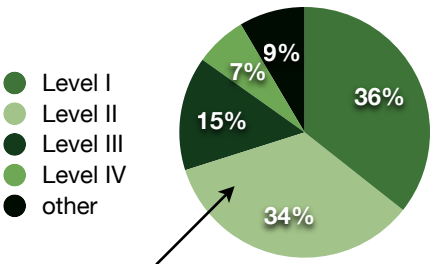

Where does [redacted] fit in?

National facilities by bed size<sup>†</sup>

bed count	number	percent
≤ 200	90	20.7%
201 - 400	154	35.4%
401 - 600	113	26.0%
> 600	78	17.9%
total	435	100.0%

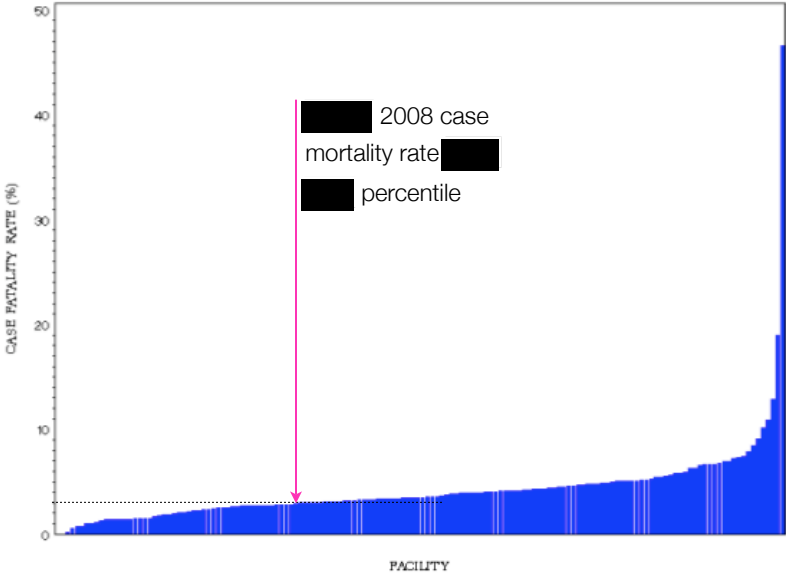

National facilities by trauma level<sup>†</sup>

[redacted] aims here (seeking Level II)

	number	percent
Level I	155	36%
Level II	150	34%
Level III	64	15%
Level IV	29	7%
other	37	9%
total	435	100%

Case fatality rate per facility for Level II facilities (n=150)

## 2008 Trauma Registry Scorecard

Trauma Activations in ED	Day shift (0700-1459)	PM shift (1500-2259)	Night shift (2300-0659)	Total
Number of Tier I activations	19	60	56	135
Number of Tier II activations	81	122	71	274
Number of Tier III consults	47	47	29	114
Total number of ED trauma visits	147	229	156	532

Mechanisms of Injury	Tier I	Tier II	Tier III	All trauma patients
Motor vehicle collision	25	100	35	160
Stabbing	23	11	2	36
Pedestrian	10	29	12	51
